

M&M Lessons from God's Word.

All of the Bible lessons in this series begin with the letter "M". The "M&M" candy company (Mars Candy Inc.) are celebrating their 45th year in 2016. The candy treats we have excitingly popped in our mouths over the years have been the same sweet treat for millions since 1941. Their slogan "Melts in your mouth...not in your hand" provides the customer a hint of truth as to why it is a fun treat to eat without messing up one's hands while enjoying the taste of chocolate with a little crunch of delight.

As Bible teachers, we are always looking for new ways to enhance the Bible lessons and catch the eye of the class members. Therefore, I

have come up with the following slogan concerning the upcoming study of God's Word.

Meditating on God's Word "Melts in Your Heart, Not in Your Head" simply means that when we study God's Word, the truth of the Scriptures provides "heart knowledge"; not just head knowledge.

The following Bible Studies will be part of the curriculum as we go through some simple facts of God's truths based on Scripture and common sense.
