

Prayer Changes Things

Sessions organized and prepared by Sherry Cumby

These sessions in this writing are a call for the people of God to pray for our nation and its people. Although we pray daily for our family, our church, and all the needs (physically, mentally, and spiritually) requested by the general public, we sometimes need to center in our praying for our nation, those in authority, and its people in general.

Therefore, we present the requests before the Lord and seek His guidance as we yield ourselves to the His mighty counsel.
